Control panel setting

Electronic unit installation

3

Insert electronic unit
between the brackets

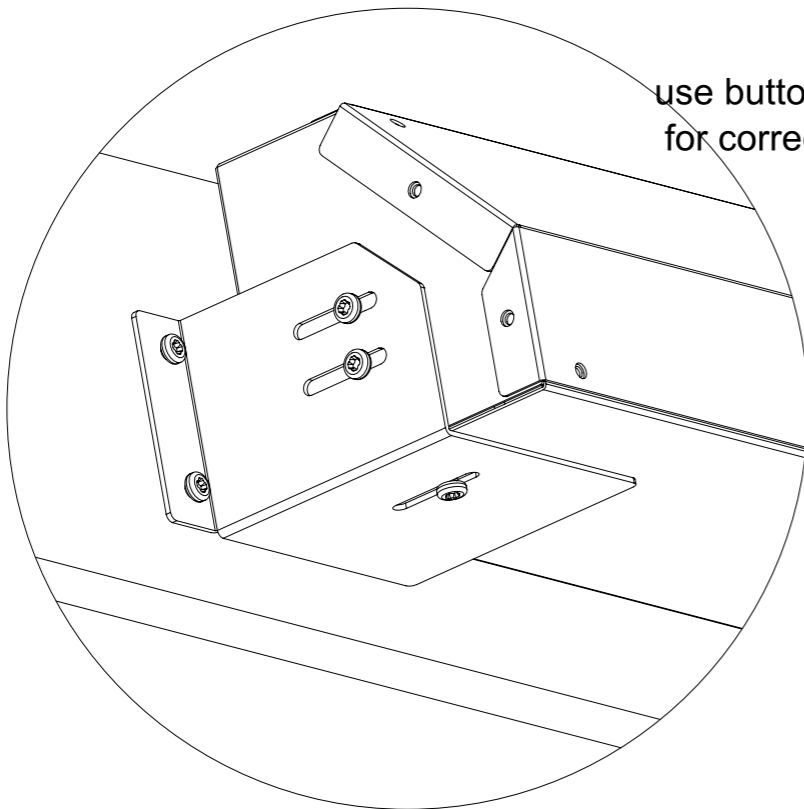

3.1

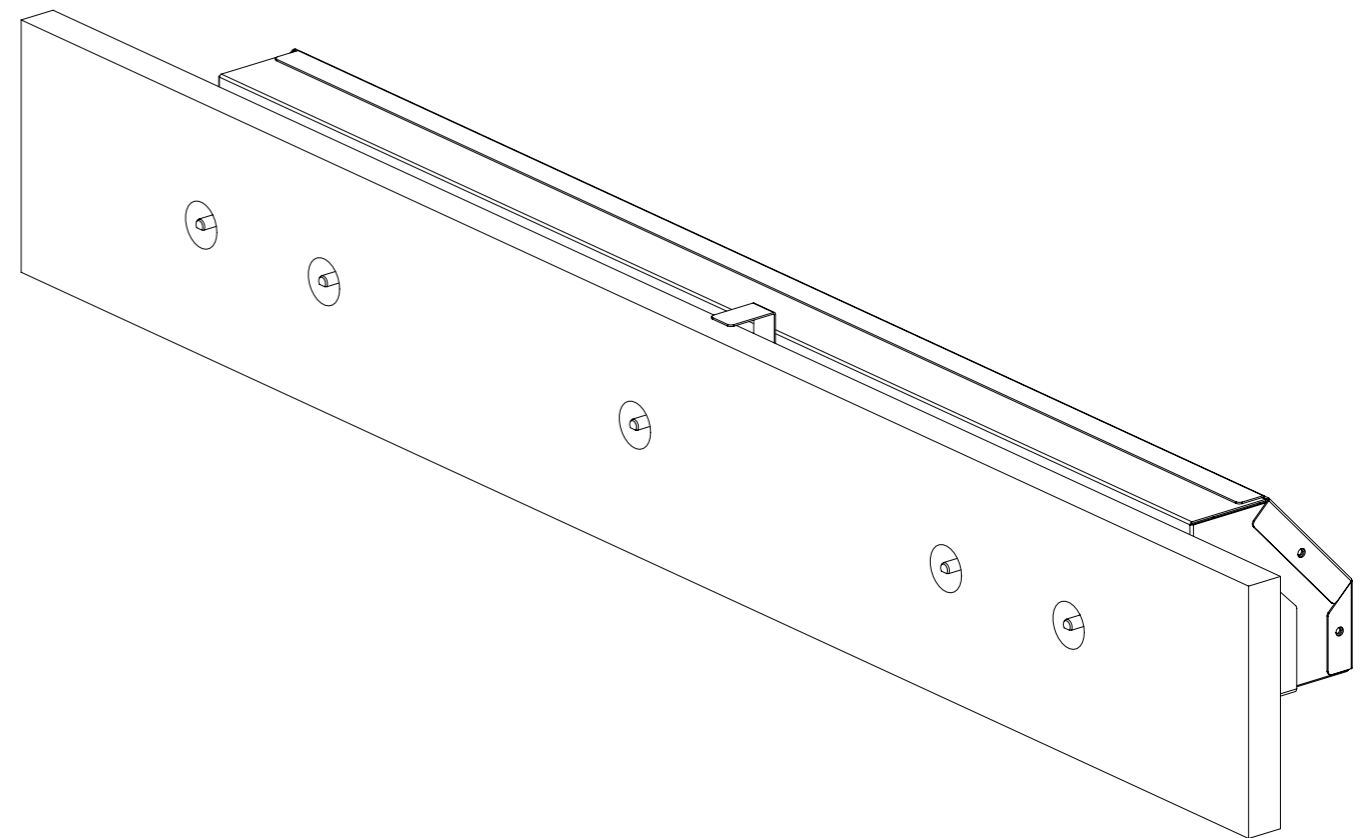

3.2

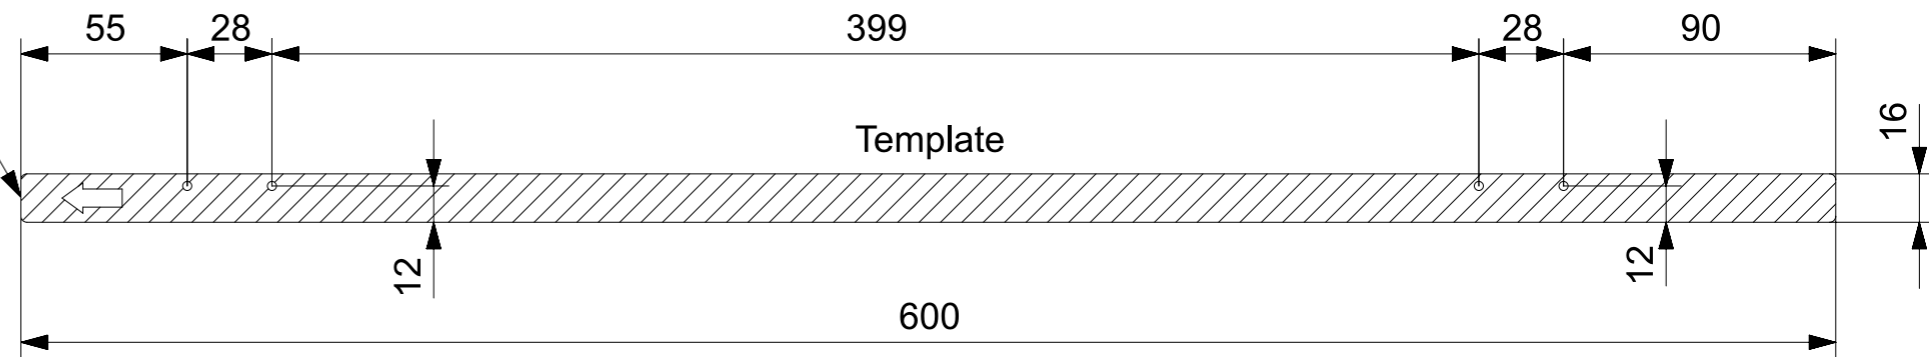

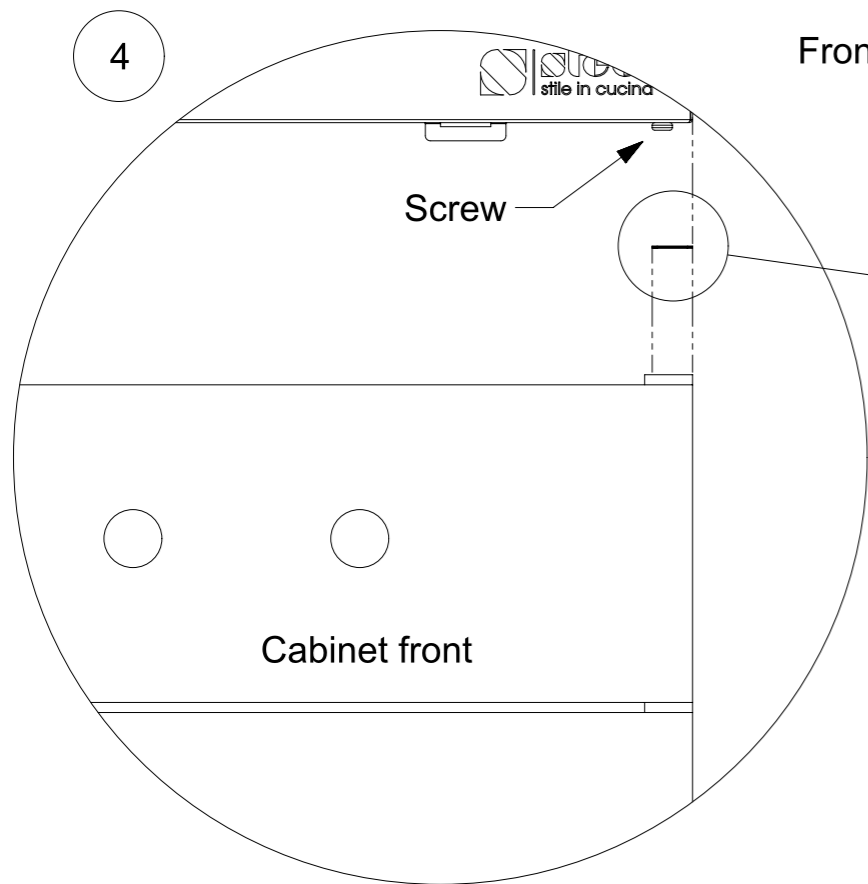

use buttonholes
for correct fixing

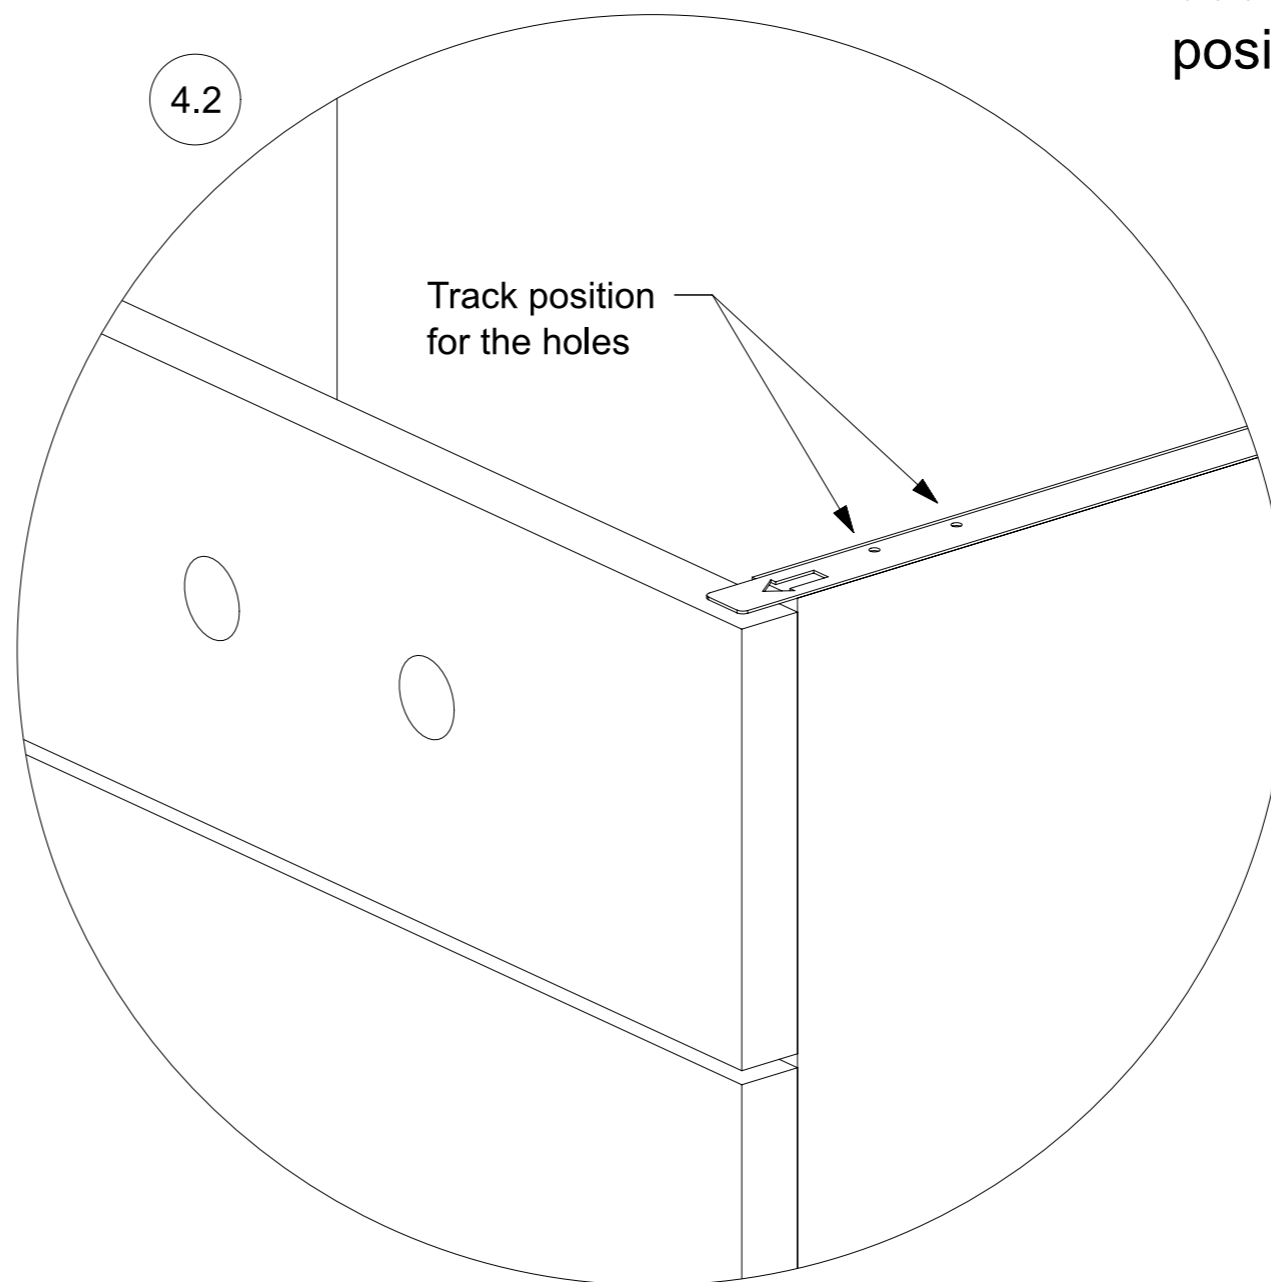

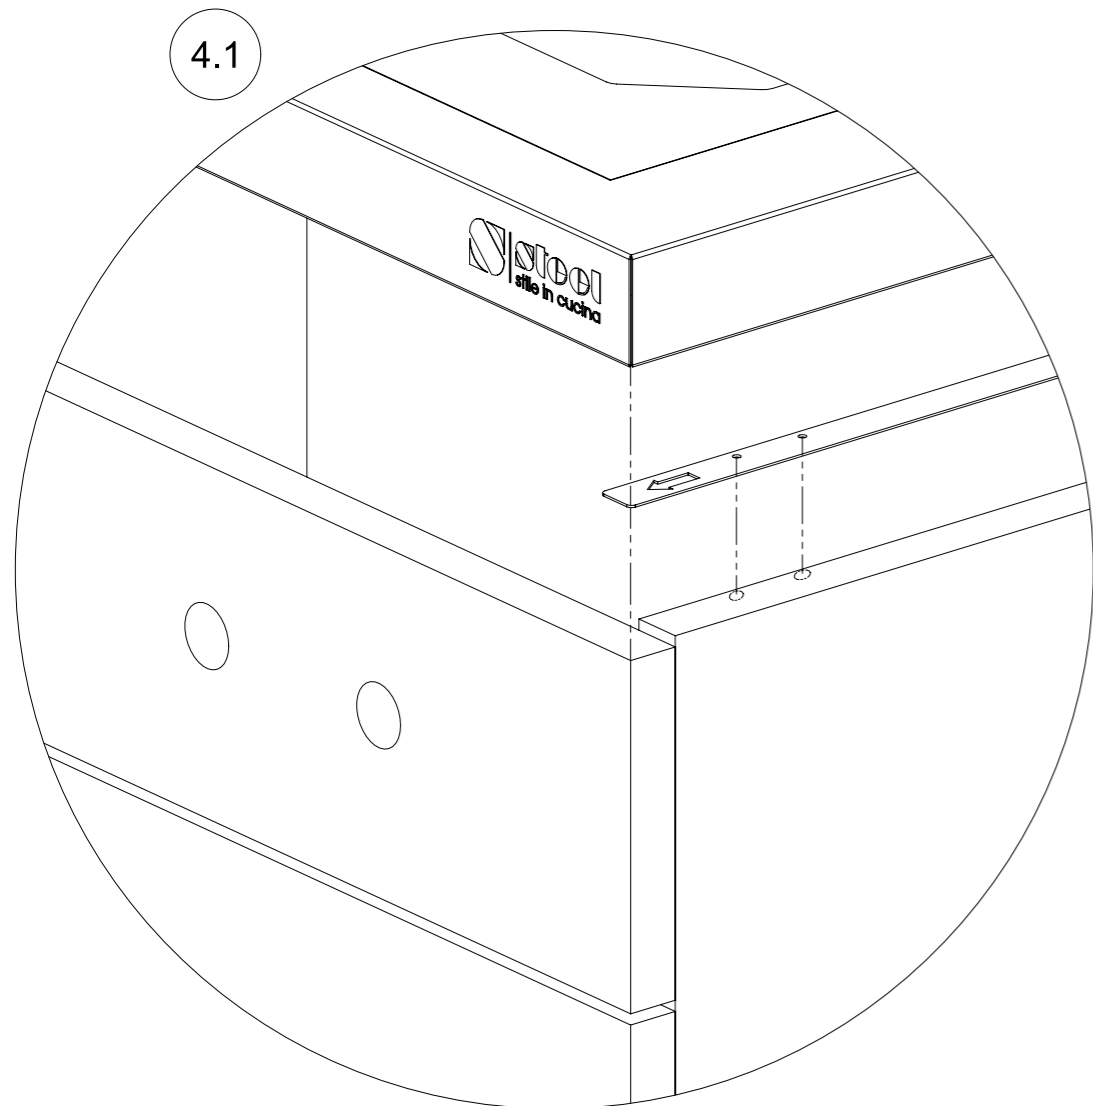

3.4

Cabinet screw holes setting by using the template

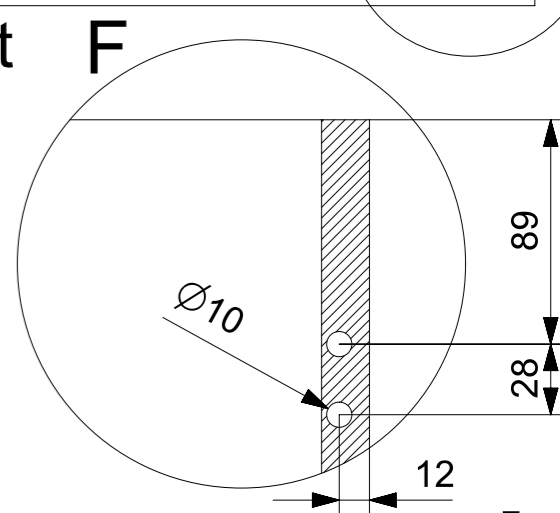

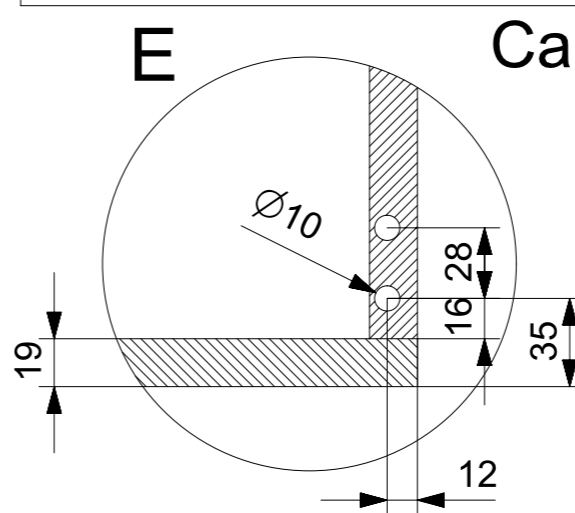

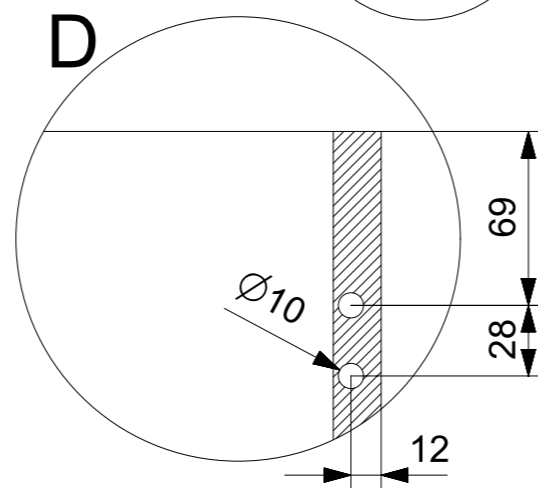

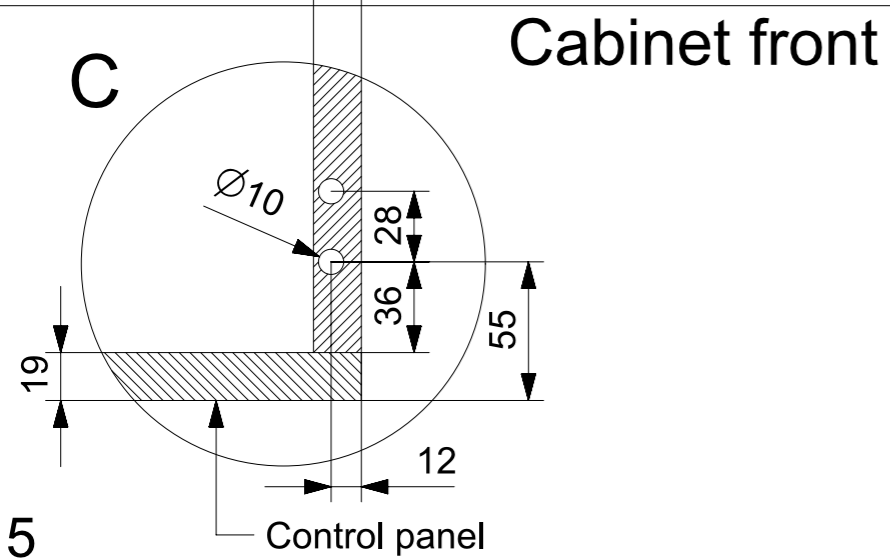

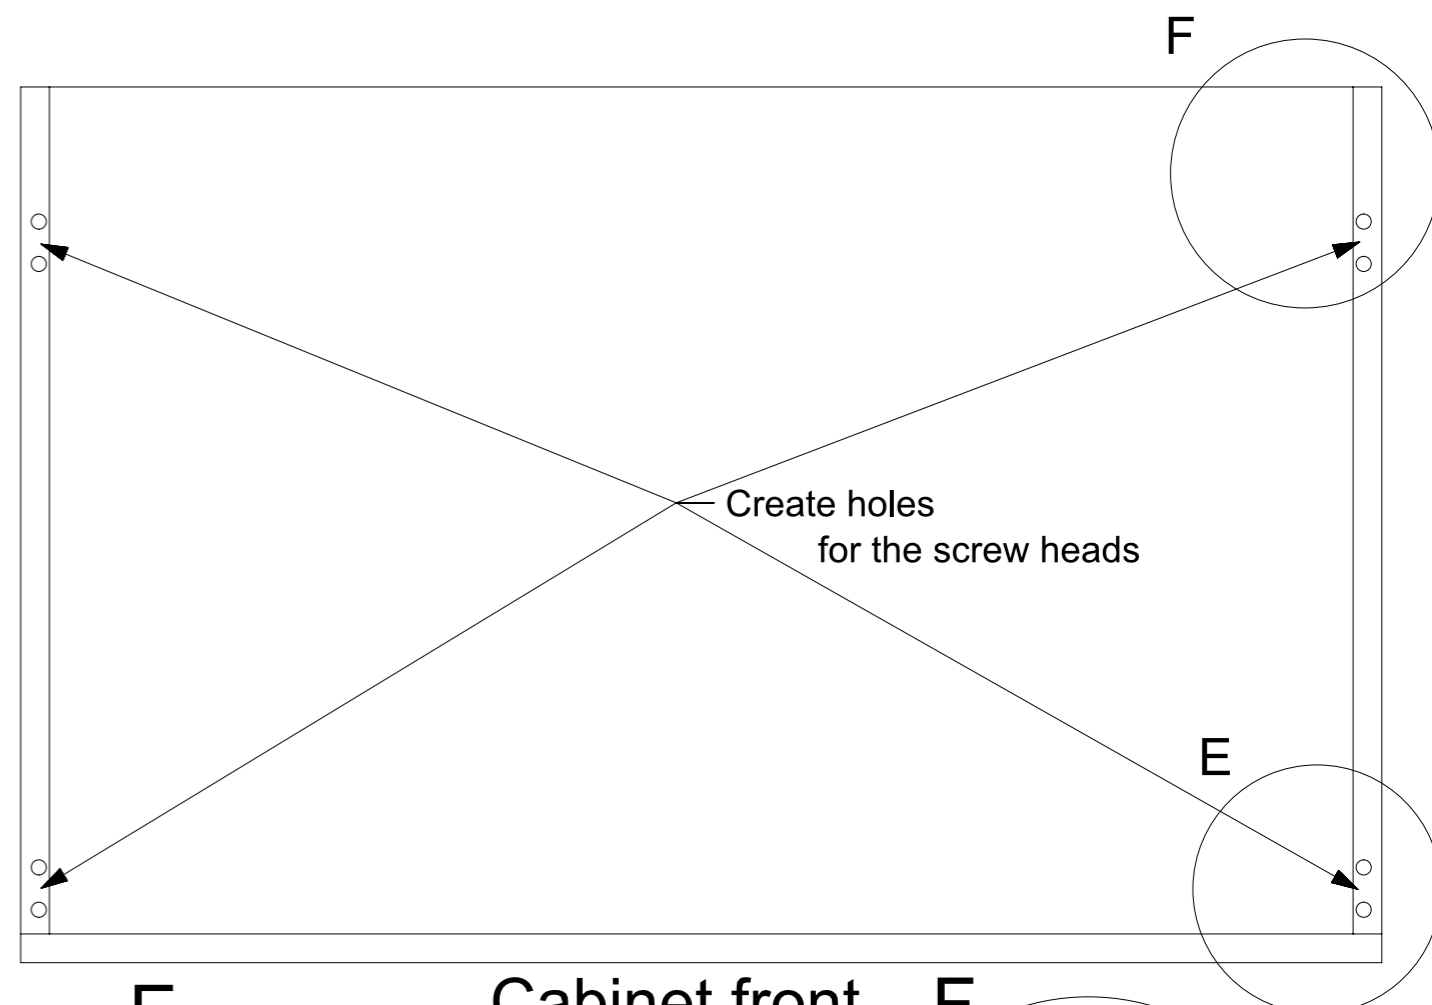

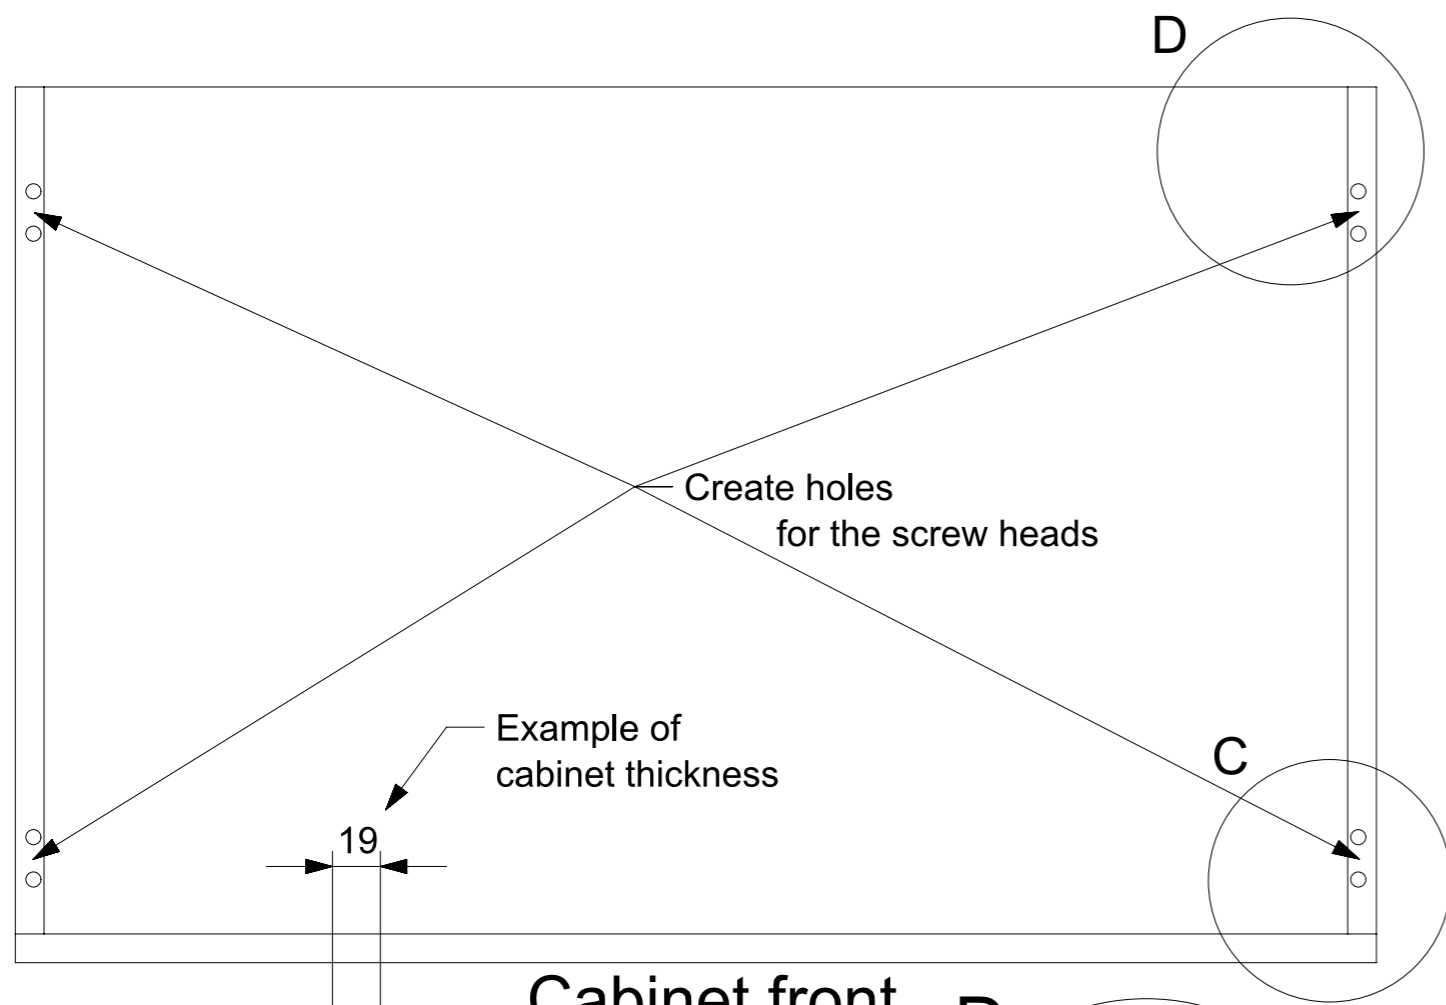

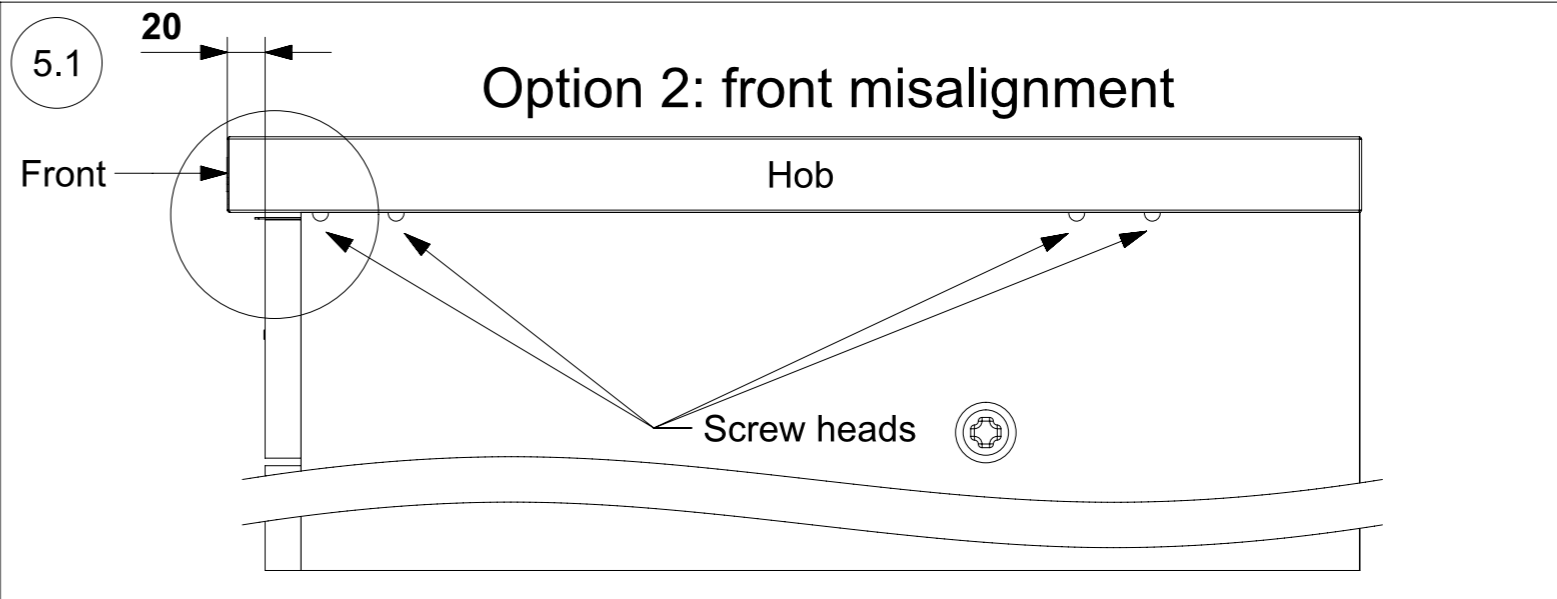

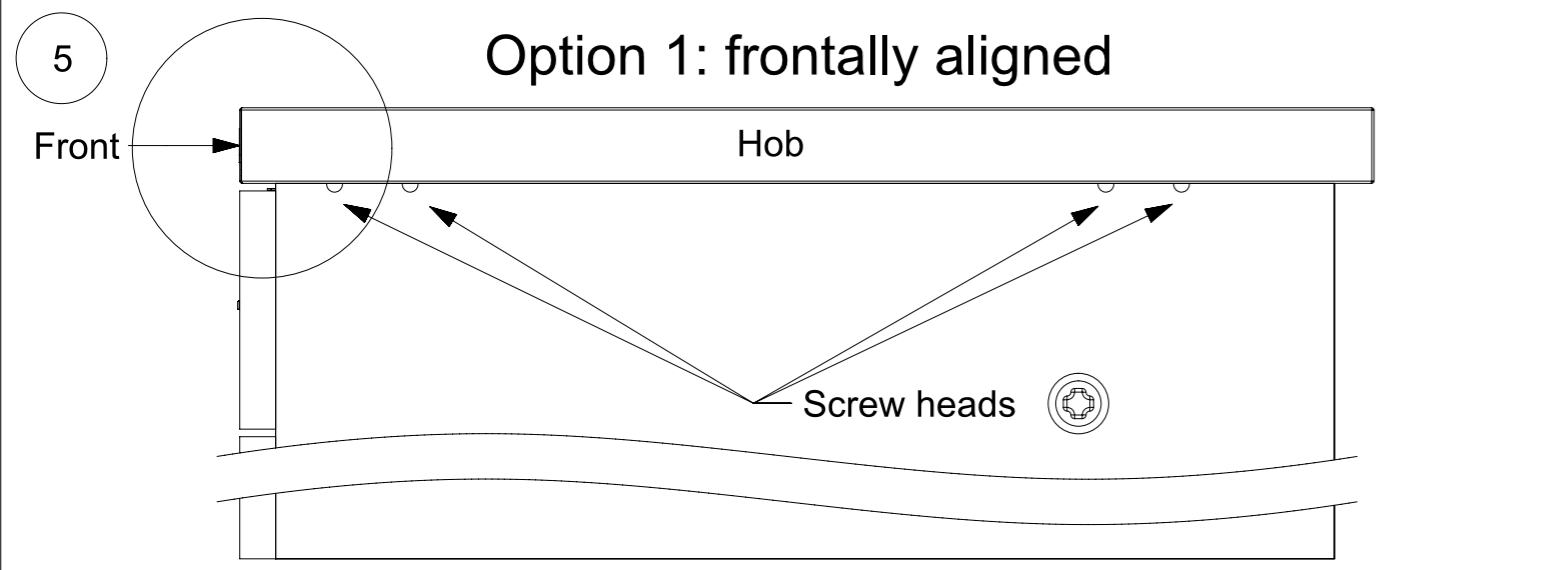

Important:
for the left side holes,
turn the template upside down
because of the asymmetrical
position of the screws

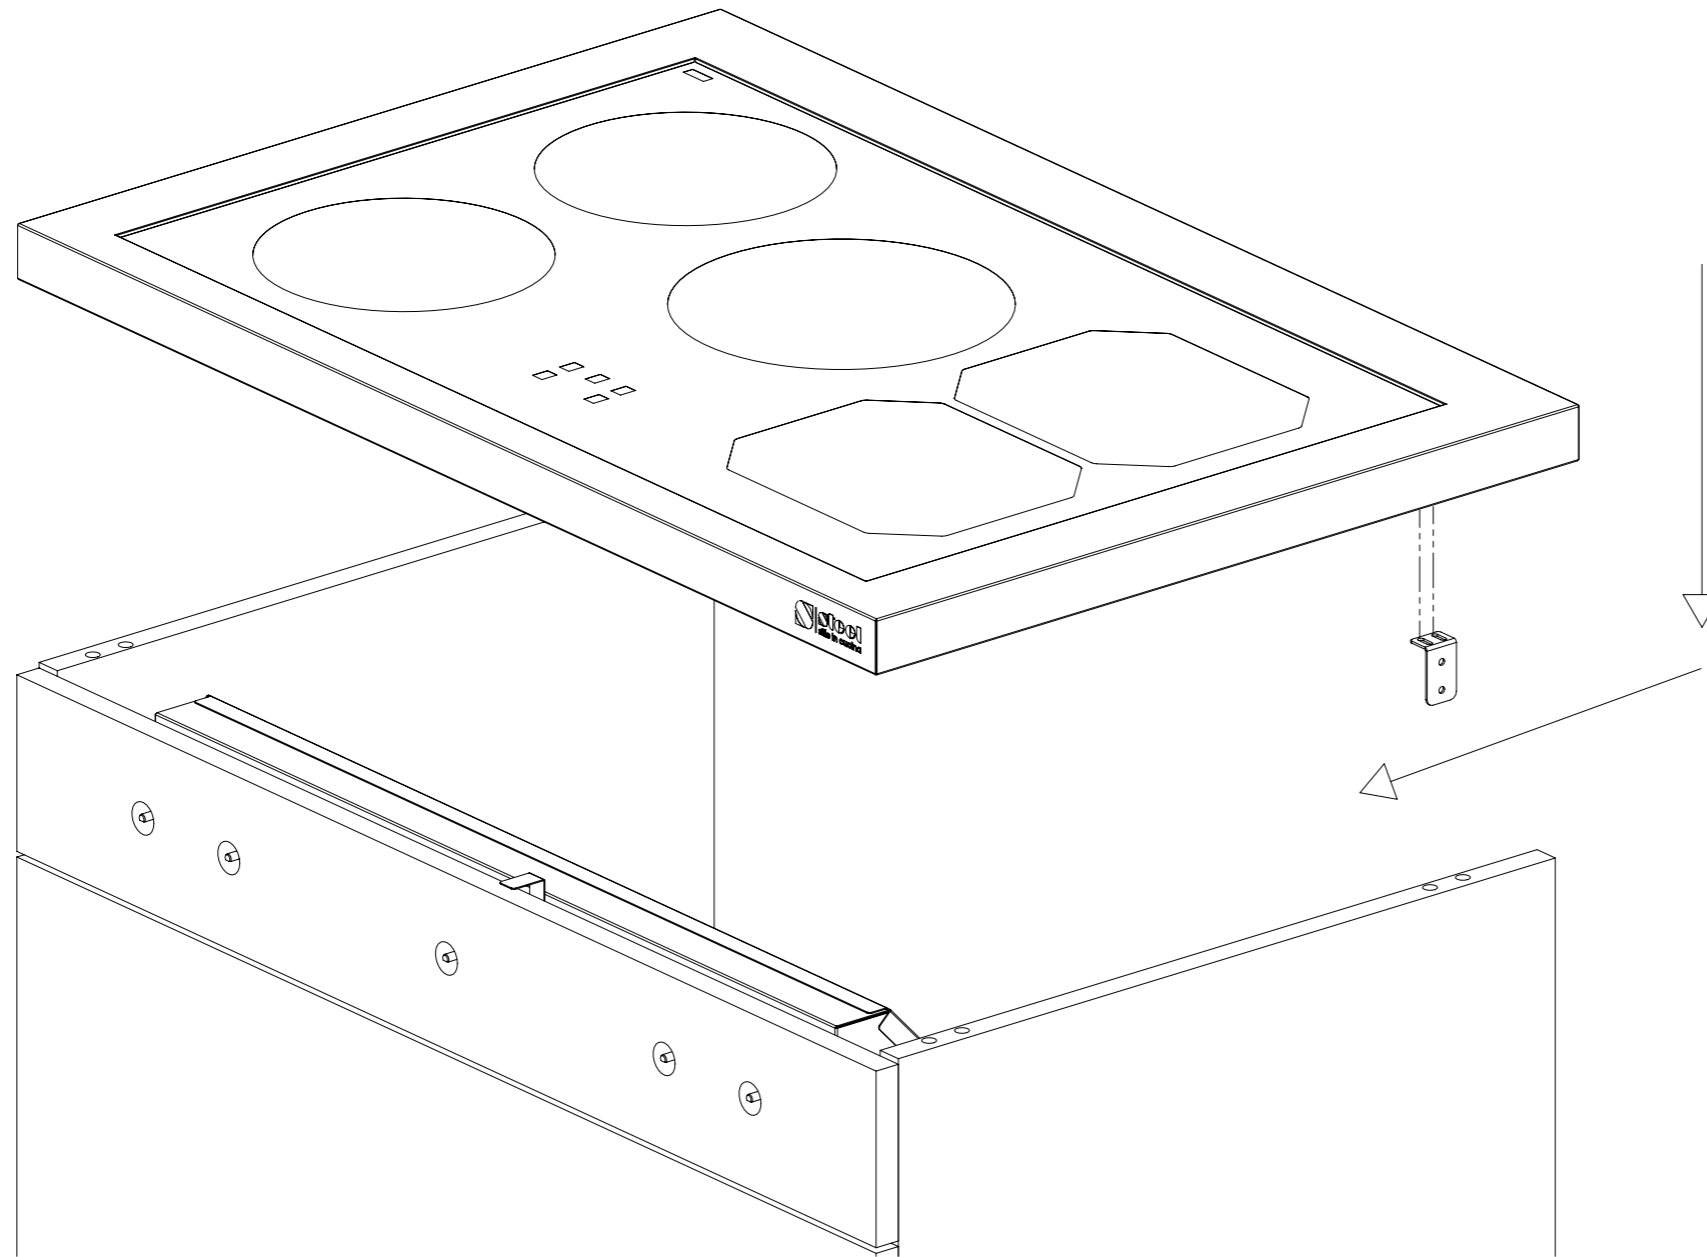

Important:
the final holes
in the cabinet must be $\varnothing 10\text{mm}$
